CATALOGUE

SKYLIGHT SHEET

- Normal series
- Light scattering series

ROOF & WALL SHEET

- Normal series
- Anti-corrosion series
- Anti-flaming series
- Reinforced series

GEL COAT PANEL

- Light weight series
- Heavy duty series
- Super smooth finish series

SANDWICH PANEL

FRP SKYLIGHT SHEET

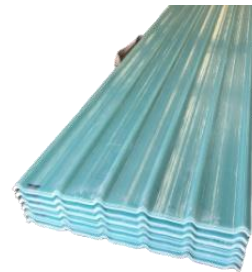

Normal Series

- ◆ Unsaturated polyester resin
- ◆ 99.99% UV protection
- ◆ 85% light transmittance
- ◆ 20+ service year
- ◆ $-60^{\circ}\text{C}\sim+140^{\circ}\text{C}$ service temperature

Light Scattering Series

- ◆ Uniform and soft lighting
- ◆ 99.99% UV protection
- ◆ 80% light transmittance
- ◆ 20+ service year
- ◆ 80% scattering rate

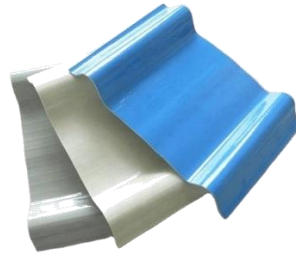

FRP ROOF & WALL SHEET

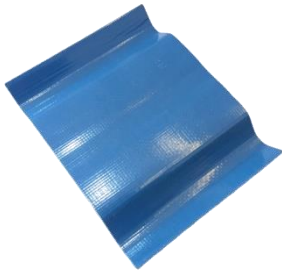

Normal Series

- ◆ unsaturated polyester resin
- ◆ random chopped fiberglass

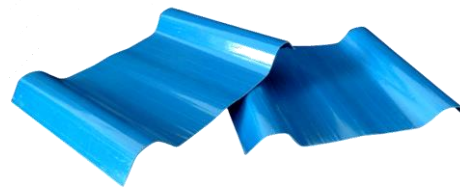

Anti-corrosion Series

- ◆ Vinyl ester resin
- ◆ random chopped fiberglass

Reinforced Series

- ◆ unsaturated polyester resin
- ◆ random chopped fiberglass
- ◆ continuous woven roving fiberglass

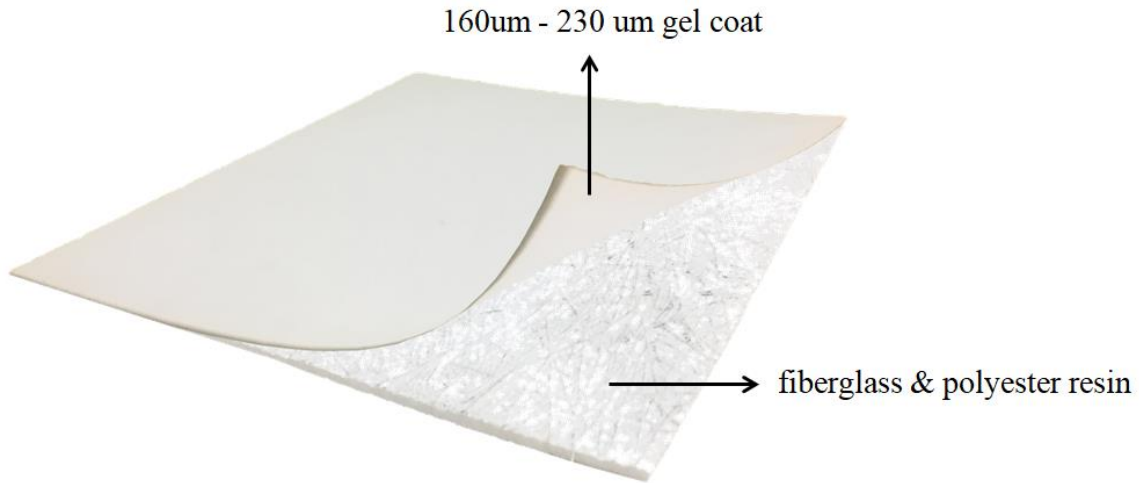

Anti-flaming Series

- ◆ Oxygen Index up to 30+
- ◆ flame-retarded resin
- ◆ random chopped fiberglass

Light Weight Series

Density is as low as 1.2 g/cm³, it brings you good mechanical strength as well as light weight.

Heavy Duty Series

Polyester resin, random chopped fiberglass and multilayer continuous woven roving fiberglass are to give the panel incomparable mechanical strength.

Super Smooth Finish Series

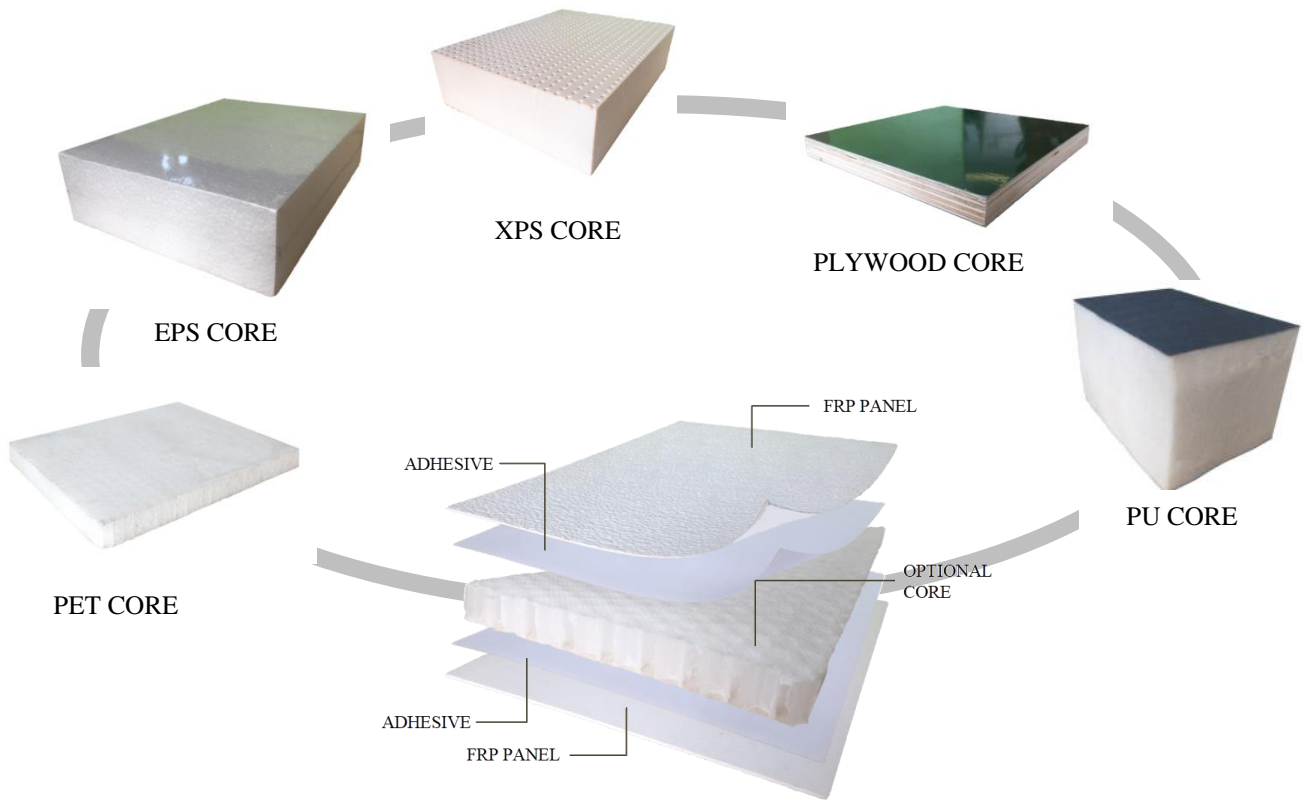

Super smooth finishes give dye sublimation and other applications requiring high finish smoothness a better output.

Personalized matching panel finish and color, just to meet more personalized needs.

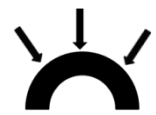

FRP SANDWICH PANEL

Runfeng FRP sandwich panel gives customers the greatest flexibility in choosing core materials and FRP panels, which helps you meet the end market demand from multiple dimensions and increase profit margins.

ANTI NOICE

ANTI PRESURRE
